

Do you own a semi-automatic firearm?

Maybe a duck gun, a rifle, a pistol?

Enjoy shooting it?

Want to keep it?

Then join the CSSA and get active. We're working really hard, but we need your help.

Mostly it's really important that we get the message below out to as many shooters as possible.

We'd like you to join the CSSA, too, of course, if you're not already a member. Strength in numbers, right?

And we'd love it if you could donate above and beyond that, too, in some way. One easy way you could do a bit more is to make copies of this poster, and get it out to as many shooters as you can. That's important. Also get out and support your local pro-gun candidate. Don't know which one that is? Ask them.

And of course we welcome donations of money. Especially if you want to help out, but can't get personally active right now. There's so many good things it can go towards. Like local and national advertising, the costs of lobbying, the Legal Fund (which has several cases before the courts right now, helping gun owners protect their property and rights),

...and to hire a part-time office assistant so our office manager can catch her breath.

Take a look at the image below. It's one of the resolutions that came out of the recent large party leadership campaign.

The image shows a red banner at the top with the text "CONGRÈS D'INVESTITURE ET BIENNAL" on the left, a white maple leaf logo in the center, and "LEADERSHIP AND BIENNIAL CONVENTION" on the right. On the far right of the banner is the slogan "CHOICES THAT COUNT" with a small maple leaf above the word "CHOICES". Below the banner, the resolution is titled "42) Automatic and Semi-Automatic Weapons". The text of the resolution reads: "WHEREAS automatic and semi-automatic weapons are illegal for hunting purposes; and WHEREAS automatic and semi-automatic weapons do not support the hunting culture found in all parts of Canada; BE IT RESOLVED that the Liberal Party of Canada urge the Government of Canada to support legislation to eliminate the personal use of automatic and semi-automatic weapons." At the bottom of the resolution, it is attributed to the "National Women's Liberal Commission" and the "Liberal Party of Nova Scotia".

We can see that the information is glaringly incorrect but the general public, lacking knowledge of firearms and the law, could easily believe it. We're going to need to educate them gently. Maybe start by inviting a local media person out for a day of shooting. Have fun and be friendly. Show them how much fun shooting is.

There's lots more to do, too. Help us out.

Join. Donate. Get active.
