

Hey! What about us?

An open letter to our Members of Parliament

The debate on Bill C-391 has been a noisy one. You've heard from Police Chiefs, politicians, victims' groups, labour unions, and a myriad of other special interest groups.

But what about us? The citizens of Canada. **YOUR CONSTITUENTS.** The millions of Canadians you are elected to serve. What about our opinion?

Angus Reid reports 72% of Canadians think the long gun registry has failed to keep its promise... to reduce gun crime. Millions of Canadians have complained for more than a decade, the hated long gun registry has to go!

LISTEN TO US! We are the people the gun registry targets.

On Second Reading, many opposition M.P.s voted the wishes of their constituents. To the M.P.s who supported Bill C-391 just 10 months ago -- nothing has changed! How can you possibly flip-flop when the legislation is exactly the same?

On the 22nd of September, your commitment to your constituents will be put to the test again and millions of Canadians will be watching what you do, especially your constituents.

WE WILL REMEMBER

Do the right thing. Support your constituents and vote for Bill C-391
